

The 8th Conference of the Hellenic Society for Computational Biology and Bioinformatics

22-24 November 2013, University of Thessaly,
Department of Computer Science and Biomedical Informatics
Lamia, Greece

The conference is a major annual event of HSCBB at being a forum for researchers in the relevant fields from Greece, Cyprus and other countries to present their work and creatively interact for the establishment of scientific networks and collaborations.

HSCBB is an official regional group of ISCB

Workshop

As an outreach activity of the HSCBB, a satellite **workshop** (22-11-2013) will be organized with subjects:

- **From gene expression to functional annotation using microarrays.**
(Dr. Ioannis Michalopoulos, Apostolos Malatras)
- **Programming visual prototypes with Java and Processing.org**
(Dr. Georgios Pavlopoulos)

Computational and Structural Biotechnology Journal (www.csbj.org) will be the forum for the publication of selected papers from the 8th conference of the Hellenic Society for Computational Biology and Bioinformatics (HSCBB13).

Keynote Speakers

- **Prof. Charalambos Savakis**
ELIXIR: safeguarding the results of life science research in Europe.
- **Prof. Artemis Hatzigeorgiou**
The dark side of the genome: Elucidating the function of non-coding genes.
- **Prof. Elias Eliopoulos**
Molecular Computational Biology : Past, Nobel and Future.

Organizing Committee

- Stavros Hamodrakas
- Christos Ouzounis
- Pantelis Bagos
- Vasilis Promponas
- Ioannis Iliopoulos

Local Organizing Committee

- Pantelis Bagos
- Panagiota Kontou
- Georgia Braliou
- Georgios Pavlopoulos

Co-Organized by:

Program Committee

- Maria Adam
- Christos Ouzounis
- Pantelis Bagos
- Stavros Hamodrakas
- Christoforos Nikolaou
- Ioannis Anagnostopoulos
- Georgia Braliou
- Vasilis Plagianakos
- Vasilis Promponas
- Ioannis Iliopoulos
- Anastasis Oulas
- Georgios Pavlopoulos
- Ioannis Michalopoulos
- Euripidis Markou
